Journal of Sedimentary Petrology

INDEX TO VOLUME 33

A classification of common sandstones 664
A convenient nomenclature for poorly sorted sediments 478
A criticism of certain usage of the phi-notation 670
A geologic investigation of some residual orthoquartzite boulders in the lower Eocene of southwestern Union County, *Mississippi* 53
A method of comparing volume measurements on pebbles 609
A note on some possible misinformation from cores obtained by piston-type coring devices 950
A preliminary note on the mechanical and organic factors influencing carbonate differentiation, Heron Island Reef, Australia 962
A rapid visual method for estimating sedimentary parameters 831
A reconnaissance survey of the relationship between clay mineralogy and geological environment in the Negev, southern Israel 874
Abraded materials, sizes of 628
Adams, John K., article by 587
Adaptation of colorimeter for measuring *silt-sized particles—a rapid photo*extinction (PE) method 41
Addition to "Method of solution of calcareous materials using the complexing agent, EDTA" 227
Agron, Sam L., note by 469
Agterberg, F. P., and Briggs, Garrett, article by 393
Aldrich Mountains, Oregon, low-grade mineral facies in Upper Triassic and Lower Jurassic rocks 411
Allen, H. W., and Borns, H. W., Jr., article by 675
An automated grain-shape classifier 23
An inexpensive sampler 795
Analysis of percussion cones 938
Analysis of vectorial data, errata in 803
Annot Sandstone turbidities, vertical petrographic variability 783
Apalachicola Bay, Florida, sedimentary environments in 205
*Arkoma basin, Oklahoma, statistical analy*sis of ripple marks in Atokan and Desmoinesian rocks in 393
*Arkoses from Auvergne, France, and gray*wackes from Harz Mountains, Germany, mineral composition and texture in 914
Artificially induced thermoluminescence of *sedimentary dolomites* 64
Atokan and Desmoinesian rocks in Arkoma basin, Oklahoma, statistical analysis of *ripple marks* 393
Austin Glen (Trenton) and in Schenectady, New York, sedimentary structures ... 958
Australia, Heron Island reef, mechanical and organic factors influencing carbonate differentiation 962
Australia, Moana, rutile content of beach sands determined by using Frantz isodynamic separator 799
Automated grain-shape classifier 23
Auvergne, France, mineral composition and texture in arkoses 914

Balgord, William D., Reesman, A. L., and *Keller, W. D., article by* 191
Balgord, William D., Reesman, A. L., and Keller, W. D., article by 426
*Banded calcite mudstone in the Lower Car*boniferous "reef" knolls of the Dublin basin, Ireland 904
Banerjee, article by 320
Barakar Sandstones, India, sedimentary differentiation trends 320
Basumallick, Sudhir, note by 948
Bay of Fundy intertidal zone sediments ... 844
*Beach sands, geiger counter X-ray diffrac*tometer for determining the rutile content of heavy mineral separations of .. 945
*Beach sands, Gulf of Mexico, talc occur*rence in clay fractions from 231
Beach sands, Moana, South Australia, rutile content determined by using Franz isodynamic separator 799
Bentonites, interpretative value of heavy minerals 343
Bentor, Yaacov K., Bodenheimer, Wolf, and *Heller, Lisa, article by* 874
Best paper award 809
Bhattacharya, N., article by 789
Biogeochemistry of sediments in experimental Mohole 140
Bissell, Harold J., and Chilingar, George, note by 801
Blatt, Harvey, and Christie, John M., article by 559
Bodenheimer, Wolf, Heller, Lisa, and Bentor, Yaacov K., article by 874
Bonham, L. C., and Zimmerle, W., "Rapid methods for dimensional grain orientation measurements," discussion of .. 483
Borns, H. W., Jr., and Allen, H. W., article by 675
Boron in sedimentary rocks, size fractionation applied to geochemical studies of 694
Bottom sediment studies, Buzzards Bay, *Massachusetts* 511
Boulder surface markings in Quaco Formation (Upper Triassic), St. Martin's, *New Brunswick, Canada* 49
Boulders, residual orthoquartzite, lower Eocene of southwestern Union County, *Mississippi, investigation of* 53

Boyd, Donald W., and Ore, H. Thomas, article by ... 438
Brachiopod shells in estimating compaction factor of shale ... 796
Bray, E. E., Rittenberg, S. C., Emery, K. O., Hülsemann, Jobst, Degens, E. T. Fay, R. C. Reuter, J. H., Grady, J. R., and Richardson, S. H., article by ... 140
Brazos River Sandstone Member of Garner Formation, Texas, paleocurrent study ... 97
Březina, Jiří, article by ... 931
Briggs, Garrett, and Agterberg, F. P., article by ... 393
Briggs, Garrett, article by ... 97
Brown, S. Ervin, and Thayer, T. P., article by ... 411
Bruun, Per, and Gerritsen, F., "Stability of Coastal Inlets," review of ... 237
Bubble-wall texture and its significance ... 224
Buist, David S., note by ... 799
Buist, David S., note by ... 945
Bulk densities of mineral grains from Mohole samples (Guadalupe site) ... 474
Burma, Chauk, petrography and origin of Peguan sandstones ... 333
Burns, Robert E., note by ... 950
Burt Lake, Cheboygan County, Michigan, geology of bottom sediments ... 304
Buzzards Bay, Massachusetts, and Long Island Sound, rates of sediment reworking by *Yoldia limatula* ... 723
Buzzards Bay, Massachusetts, bottom sediment studies ... 511
Byrne, John V., note by ... 467

Calcareous materials, solution by EDTA complexing agent ... 227
Calcareous sediments, Ca/Mg and Sr/Ca ratios ... 236
Calcite, dolomite, quartz and clay content of carbonate rocks, determination of ... 124
Calcite mudstone, banded, in Lower Carboniferous reef knolls of Dublin basin, Ireland ... 904
Calibration, sieve ... 953
Cambrian (Upper) Lamotte Sandstone in Missouri, sedimentation and petrology of ... 860
Ca/Mg and Sr/Ca ratios of calcareous sediments as a function of depth and distance from shore ... 236
Campbell, Donald H., article by ... 845
Canada, New Brunswick, St. Martin's, boulder surface markings in Quaco Formation (Upper Triassic) ... 49
Cape Romano, Florida, low-energy coast near ... 713
Carbonate cores, dip determination in ... 680
Carbonate differentiation influenced by mechanical and organic factors, Heron Island reef, Australia ... 962
Carbonate rocks, determination of calcite, dolomite, quartz and clay content ... 124
Carozzi, Albert V., article by ... 633
Cementation and diagenesis of the Lameta beds, Lametaghat, M. P., India ... 728
Chanda, S. K., article by ... 728
Channelling patterns and flow in tidal inlets ... 279
Chauk, Burma, petrography and origin of Peguan Sandstones ... 333
Cheboygan County, Michigan, geology of bottom sediments from Burt Lake ... 304
Chilingar, George, and Bissell, Harold J., note by ... 801
Chilingar, George V., discussion by ... 236
Chilingar, George V., Main, Richard, and Sinnokrot, Ali, article by ... 759
Christie, John M., and Blatt, Harvey, article by ... 559
Christopher, James E., article by ... 5
Classifier, automated grain-shape ... 23
Classification of common sandstones ... 664
Classification of tuffs ... 234
Clastic sediments, interpretation of grain size distribution curves of ... 180
Clay, calcite, dolomite and quartz content of carbonate rocks, determination of ... 124
Clay dune genesis, physicochemical and environmental factors in ... 766
Clay fractions from beach sands of Gulf of Mexico, occurrence of talc in ... 231
Clay mineral aggregates, preparation of from oil—saturated sandstones ... 966
Clay mineralogy and geological environment in Negev, southern Israel, survey of relationship between ... 874
Clay sediments, concentration changes of pore solutions during compaction ... 919
Coast, low-energy, near Cape Romano, Florida ... 713
Coffeyville and Hogshooter formations (Missourian), northeastern Oklahoma, genetic significance of variations in limestones ... 73
Colorimeter for measuring silt-sized particles, adaptation of ... 41
Compaction factor in shale, estimation from distorted brachiopod shells ... 796
Comparative evaluation of three techniques of pipette analysis ... 462
Concentration changes of pore solutions during compaction of clay sediments ... 919
Concepts of fluid mechanics provided by primary sedimentary structures ... 173
Cones, patterned, in Permo-Triassic redbeds of Wyoming and adjacent areas ... 438
Conglomerates, Ordovician limestone pebble, Stansbury Range, Utah, ripple marks on ... 105
Constitution, S.E.P.M. ... 241
Continental shelf, sedimentation in a high energy environment ... 815
Cores, carbonate, dip determination in ... 680
Coring devices, piston-type, possible misinformation from cores obtained by ... 950
Creager, Joe S., and Sternberg, R. W., article by ... 462
Creager, Joe S., article by ... 815
Crinoid orientation by current action ... 580
Cronoble, William R., and Mankin, Charles J., article by ... 73
Cross ripples in Jodhpur Sandstone, Rajasthan, India ... 948

Cross-stratification in San Bernard River, Texas point bar deposit..... 350
Convolute lamination, its origin, preservation, and directional significance..... 616
Cullen, David J., article by..... 387
Current action in orienting crinoids..... 580
Current direction and environment indicated by rhomboid ripple mark..... 604

Degens, E. T., Fay, R. C., Reuter, J. H., Grady, J. R., Richardson, S. H., Bray, E. E. Rittenberg, S. C., Emery, K. O., and Hülsemann, Jobst, article by.... 140
Densities, bulk, of mineral grains from Mohole samples, Guadalupe site..... 474
Desmoinesian and Atokan rocks in Arkoma basin, Oklahoma, statistical analysis of ripple marks..... 393
Determination of calcite, dolomite, quartz and clay content of carbonate rocks.. 124
Determination of dip, in carbonate cores.. 680
Devonian Torquay Formation, Saskatchewan, Canada, lithological and geochemical aspects..... 5
Diagenesis and cementation of Lameta beds, Lametaghat, M. P., India..... 728
Diebold, Frank E., Lemish, John, and Hiltrop, Carl L., article by..... 124
Dietrich, R. W., Hobbs, C. R. B., Jr., and Lowry, W. D., article by..... 646
Dip determination in carbonate cores..... 680
Directional significance of convolute lamination, its origin, preservation..... 616
Dissolved products of artificially pulverized silicate minerals and rocks: Part I.... 191
Dissolved products of artificially pulverized silicate minerals and rocks: Part II... 426
Dolomite formation in sulfate solutions... 801
Dolomite, quartz, clay and calcite content of carbonate rocks, determination of.. 124
Dolomites, sedimentary, artificially induced thermoluminescence of..... 64
Dolomitization interrupted by silicification 646
Dorr, John A., Jr., and Kauffman, Erle G., article by..... 751
Dott, R. H., Jr., review by..... 239
Dreimanis, Alexsis, erratum in article by.. 235
Dublin basin, Ireland, banded calcite mudstone in Lower Carboniferous reef knolls..... 904
Dzulynski, Stanislaw, and Smith, Alec J., article by..... 616

EDTA complexing agent, solution of calcareous materials by using..... 227
Ehlmann, Arthur J., Hulings, Neil C., and Glover, Everett D., article by..... 87
Emery, K. O., Hülsemann, Jobst, Degens, E. T., Fay, R. C., Reuter, J. H., Grady, J. R., Richardson, S. H., Bray, E. E., and Rittenberg, S. C., article by 140
Emrich, Grover H., and Wobber, Frank J., article by..... 831
Englehardt, Wolf V., and Gaida, Karl H., article by..... 919
Environments, sedimentary, in Apalachicola Bay, Florida..... 205
Errata in "Analysis of vectorial data"..... 803
Errata, Quantitative gasometric determination of calcite and dolomite by using Chittick apparatus..... 235
Errata, "The hydraulic shape of sand particles"..... 482
Estimation of the compaction factor of a shale from distorted brachiopod shells 796
Evaluation of three techniques of pipette analysis..... 462
Evans, R. G., Holmes, C. W., and Tanner, W. F., article by..... 713
Evidence for a Talchir (Lower Gondwana) glaciation: Striated pavement and boulder bed at Irai, central India.... 739

Factors affecting the distribution of opposing mollusk valves..... 703
Fay, R. C., Reuter, J. H., Grady, J. R., Richardson, S. H., Bray, E. E., Rittenberg, S. C., Emery, K. O. Hülsemann, Jobst, and Degens, E. T., article by.. 140
Ferguson, Laing, note by..... 796
Fisher, Richard V., note by..... 224
Flint, R. F., Washburn, A. L., and Sanders, J. E., note by..... 478
Florida, Apalachicola Bay, sedimentary environments..... 205
Florida, Cape Romano, low-energy coast near..... 713
Florida reef tract, spur and groove formation on..... 291
Flow and channelling patterns in tidal inlets..... 279
Fluid mechanics concepts provided by primary structures..... 173
Fluvial gravel imbrication, variations in... 467
Flysch-type sediments, laminites..... 14
Foraminiferal sediments, modern, stages of glauconite formation in..... 87
Formation of dolomite in sulfate solutions. 801
France, Auvergne, mineral composition and texture in arkoses..... 914
Frantz isodynamic separator, used to determine rutile content of beach sands from Moana, South Australia..... 799
Frizzell, Minette M., note by..... 795
Fundy, Bay of, intertidal zone sediments.. 844

Gaida, K. H., and Engelhardt, Wolf v., article by..... 919
Garner Formation, Texas, paleocurrent study of Brazos River Sandstone Member..... 97
Geiger counter X-ray diffractometer for determining the rutile content of heavy mineral separations of beach sands..... 945
Genetic significance of variations in limestones of Coffeyville and Hogshooter formations (Missourian), northeastern Oklahoma..... 73
Geochemical and lithological aspects of Upper Devonian Torquay Formation, Saskatchewan..... 5

Pressure-disc sediment sampler 944
Price, W. Armstrong, article by 279
Price, W. Armstrong, article by 766
Price, W. Armstrong, review by 237
Provenance indicated by use of zones plagioclase 380
Provenance studies of sedimentary rocks, significance of undulatory extinction in quartz of igneous and metamorphic rocks in 559

Quaco Formation (Upper Triassic), St. Martin's, New Brunswick, Canada, boulder surface markings 49
Quantitative gasometric determination of calcite and dolomite by using Chittick apparatus, erratum 235
Quartz, clay, calcite and dolomite content of carbonate rocks, determination of .. 124
Quartz grains, percussion marks on 845
Quartz, undulatory extinction in igneous and metamorphic rocks and its significance in provenance studies of sedimentary rocks 559
Quick preparation of peel-prints for sedimentary petrography 228

Rajasthan, India, cross ripples in Jodhpur Sandstone 948
"Rapid methods for dimensional grain orientation measurements," discussion of 483
Rates of sediment reworking by *Yoldia limatula* in Buzzards Bay, Massachusetts and Long Island Sound 723
Recent ripple marks at Giorgimpopoli, Libya 964
Redbeds, Permo-Triassic, Wyoming and adjacent areas, patterned cones in 438
Reef tract, Florida, spur and groove formation 291
Reesman, A. L., Keller, W. D., and Balgord, William D., article by 191
Reesman, A. L., Keller, W. D., and Balgord, William D., article by 426
Reid, John R., article by 304
Relationship between parting lineation and rock fabric 779
Relationship between porosity, permeability, and surface areas of sediments 759
Residual soil, pre-glacial, in Thomaston, Maine 675
Reuter, J. H., Grady, J. R., Richardson, S. H., Bray, E. E., Rittenberg, S. C., Emery, K. O., Hülsemann, Jobst, Degens, E. T., and Fay, R. C., article by 140
Rhoads, Donald C., article by 723
Rhomboid ripple mark, indicator of current direction and environment 604
Richardson, S. H., Bray, E. E., Rittenberg, S. C., Emery, K. O., Hülsemann, Jobst, Degens, E. T., Fay, R. C., Reuter, J. H., and Grady, J. R., article by 140
Ripple mark, rhomboid, indicator of current direction and environment 604
Ripple marks cut on Ordovician limestone pebble conglomerates, Stansbury Range, Utah 105
Ripple marks in Atokan and Desmoinesian rocks in Arkoma basin, Oklahoma, statistical analysis of 393
Ripple marks, Recent, at Giorgimpopoli, Libya 964
Rippled toroids from the Napoleon Sandstone Member (Mississippian) of southern Michigan 751
Rittenberg, S. C., Emery, K. O., Hülsemann, Jobst, Degens, E. T., Fay, R. C., Reuter, J. S., Grady, J. R., Richardson, S. H., and Bray, E. E., article by 140
Rock fabric and parting lineation, relationship 779
Rocks and minerals, dissolved products of artificially pulverized silicate, Part I .. 191
Rocks and minerals, dissolved products of artificially pulverized silicate, Part II 426
Rogers, John J. W., Krueger, William C., and Krog, Marilyn, article by 628
Rutile content of beach sands from Moana, South Australia, determined by using Franz isodynamic separator 799
Rutile content of heavy mineral separations of beach sands, geiger counter X-ray diffractometer for determining the ... 945

Sabine Lake and vicinity, mineralogy of some sand-size samples from 473
Salt, Silurian, occurrence of shale balls in .. 481
Sampler, inexpensive 795
Sampler, pressure-disc sediment 944
San Bernard River, Texas, cross-stratification in point bar deposit 350
Sanders, John E., article by 173
Sanders, J. E., Flint, R. F., and Washburn, A. L., note by 478
Sands, beach, Gulf of Mexico, talc fractions

in clay fractions 231
Sand-size samples from Sabine Lake and vicinity, mineralogy of 473
Sandstone, oriented wave-splash fretwork 469
Sandstone pipes of the Laguna area, New Mexico 112
Sandstone, Upper Cambrian Lamotte, in Missouri, petrology and sedimentation 860
Sandstones, classification of 664
Sandstones, oil-saturated, preparation of oriented clay mineral aggregates from 966
Sandstones, Peguan, exposed at Chauk, Burma, petrography and origin of 333
Sarin, Dev. D., article by 333
Saskatchewan, Upper Devonian Torquay Formation, lithological and geochemical aspects 5
Schenectady and Austin Glen, New York, sedimentary structures in 958
Schlee, John S., article by 112
Schwarzacher, W., article by 580
Second National Sediment Conference, news note 485
Sediment reworking rates by *Yoldia limatula* in Buzzards Bay, Massachusetts and Long Island Sound 723
Sediment sampler, pressure-disc 944
Sediment studies, Buzzards Bay, Massachusetts 511
Sedimentary differentiation, trends in Baraker sandstones of South Karanpura coalfield, India 320
Sedimentary dolomites, artificially induced thermoluminescence of 64
